

**Position Posting  
July 2010**

**Adviser and Fund Compliance Professional – Lead Consultant**

Vista360 is a successful, established business consulting firm focused on assisting investment advisers and funds with compliance, operational and strategic solutions. We are not, however, the stereotypical consulting firm:

- We offer customized, practical advice to our clients and have a national reputation as experts in our field.
- Our consultants are Vista360 employees and have selected consulting as a career.
- The firm's founders are actively involved with clients and employees.
- We are selective when working with clients – we do not work with clients who are not a good fit.
- We structure our engagements to minimize travel. While some travel is certainly required, we expect it to be controlled.
- We are not a sweat shop – we believe in maintaining an appropriate work/life balance for employees.
- We work hard, but we play hard. We have regular team building exercises.
- Education and staff development is critical to providing the highest quality advice to clients. We dedicate significant resources to ensure staff members are current on industry developments and Vista360 consulting processes.
- We are committed to maintaining a healthy work environment – everyone pulls in the same direction, and employees truly enjoy working here.
- We offer an entrepreneurial environment, a structured process and great career opportunity.

We are looking to fill a key role:

- Lead Consultant – 10+ years of SEC compliance experience with an investment adviser and/or fund company, including experience in managing projects and staff. Responsibilities include leading client projects, delivering consulting services, managing client relationships and managing staff. Strong written and verbal communication skills required. The position is based out of our Milwaukee office and reports to Vista360's Principals.
